Mustapha

A fourth year medical student who is passionate about web development and design, and everything else that concerns technology. He's a goal-driven individual with excellent written and oral communication skills, who is experienced in planning and organizing sustainable activities geared towards improvement and welfare of others and for the betterment of the world at large. Asides being an undergraduate student of Medicine and Surgery who is ever-willing to learn new things, he also dabbles occasionally in exploring other aspects of life.
